The newsletter from the LRSP Education Team

Term 1 Secondary schools

Many young people will not have ventured far in recent months. Roads were much quieter than normal levels until recently.

With schools and workers returning, now is the time to remind students of the road safety basics.

Year 7

Due to the lockdown your new year 7 may have missed out on some critical road safety education at their last school.

Children become more independent as they transition to secondary school and may require some revision of how to use the roads safely.

We have enclosed a quiz sheet that can be used in tutorials or PSHE lessons for year 7, along with accompanying answers for discussion.

We also have a dedicated programme designed for year 7. Contact us for more information.

Road safety in your school

- *Bike to School Week* from the walking and cycling charity Sustrans is held 28th September to 3rd October 2020. For more information on this nationwide event click [here](#).
- Think! produce quality road safety materials including this short [video](#) that can be shared with pupils.

The road safety education team

Lincolnshire Road Safety Partnership has a team of Road Safety Officers who provide road safety education to schools. Contact us to find out more about the covid-safe road safety education that we can offer your school.

School Crossing Patrols

Where there is a school crossing patrol site close to your school, secondary school pupils can also make use of this facility. The patrols are in place to make school journeys safer for all.

Congestion around schools

In an effort to achieve social distancing within schools, some areas have instead seen congestion in public areas outside schools.

We advise against allowing large groups of people to gather in car parks, on roads or driveways where there may be moving vehicles.
