We are in the process of reviewing our practices around rewards and sanctions and are delighted to announce an exciting new addition to our existing rewards system. Our current system of awarding merit badges works very well for many students, rewarding them for all-round achievement. Some of us, however, excel in a narrower range of areas, but still achieve such an incredibly high standard in a subject that deserves recognition. To this end, we are introducing a system of **Subject Colours** augmenting those currently offered in PE, drama and music. There will be a small number of colours available for Subject Leaders to award to each year group. These will be awarded to students at the Subject Leader's discretion, either for exceptional achievement in that subject or significant development within the subject area.
